

T1: Focusing on history time series data

- **Trend: Up/Down/Flat/Uncertain**
- **Volatility: Increased/Decreased/Constant/Uncertain**
- **Seasonality: Fixed/Shifting/No/Uncertain**
- **Outlier: Sudden spike/Level shift/Stable no outlier/Uncertain**

T2: Focusing on future prediction

- **Median demand level change: Higher/Lower/Similar/Uncertain**
- **Volatility change: Increased/Decreased/Constant/Uncertain**
- **Seasonality: Fixed/Shifting/No/Uncertain**
- **Numerical prediction**

T3: Focusing on history time series data, provided with background information, meaning of covariates……

- **Does a sharp load rise coincide with a temperature drop?**
  - **Yes/No/Uncertain**
- **Does a new secondary evening peak appear in this period?**
  - **Yes/No/Uncertain**

T4: Focusing on future prediction, provided with bachground information, meaning of covariates, events description

- **Median demand level change: Higher/Lower/Similar/Uncertain**
- **Volatility change: Increased/Decreased/Constant/Uncertain**
- **Seasonality: Fixed/Shifting/No/Uncertain**
- **Numerical prediction**
